

# INTRODUCTION FROM THE CHAIRMAN

MTG International focuses on quality, service and commitment. With 50 years of international business across 80 countries behind me, I can confidently say that MTG provides its customers superior support, professionalism, and supply chain management, leading to cost savings and higher margins.

We export the best quality hair consistently from Asia, and have travelled the world to source and develop the top hair manufacturers on multiple continents. MTG has built the infrastructure to support both startups, looking to begin their journeys, and more established business looking to streamline costs.

MTG understands international business and has operating offices with local staff in India, China, and USA.

My goal as the Chairman is to provide you my commitment: if you join the MTG family you will receive the highest level of professional and personal service and efficiencies directly increasing your bottom line.

Thank you and welcome to MTG International.

Ashok Jhalani NEW DELHI, INDA

#### About Us

MTG International is one of the largest manufacturers of premium human hair products in the industry. As a leading supplier and exporter, MTG makes it their business to source and select the finest quality hair available. We cater to Importers, Salon Chains, Cosmetic / Beauty Distributors and Retailers of all sizes. Whether you are well established or an emerging hair brand or reseller, MTG is your "one stop shop" for the most beautiful human hair in the market.

To meet the demands of their customers, many hair companies must often manage multiple vendors across multiple continents to source hair from various origins. This can present challenges of poor communication, quality deficiencies and sheer lack of consistency. These issues are often frustrating and time consuming for business owners. MTG helps bridge the gap most people experience doing business with overseas vendors with world class customer service based in the United States, one-on-one account management and individualized product development.

MTG is there every step of the way. With an Importer Servicing Center in the US (located just outside New York City) and warehouses located in the US, India and China; MTG can get you the product you need when you need it.

# Sourcing / Supply Chain Management:

With production facilities in India, China, and South East Asia; MTG makes it easier for customers seeking hair products of various origins. Customers can reduce time and costs associated with sourcing and maintaining relationships with multiple vendors and focus their energy on their business. MTG does the work for you and will produce the hair you need.

#### **Tag Printing**

MTG can offer you full color printed tags at very competitive pricing. Please contact us with your requirements for the latest offers.

#### **Indian Hair**

Indian hair is the finest quality premium human hair available. Indian human hair is sourced from temples and barber shops throughout India. #### Our Hair

#### Virgin Brazilian Hair

Virgin Brazilian Hair is the finest quality premium Brazilian human hair available. Each RSD Virgin selection has been collected from one donor, all cuticles are intact and you will notice each piece has a natural taper at the end. All Virgin Brazilian Hair has undergone a stringent quality assurance process to ensure it is free of imperfections. Virgin Brazilian Hair is available in a natural 1b-2 and will last well up to a year with proper care.

## VIRGIN TEXTURES:

#### STEAM PERMED TEXTURES:

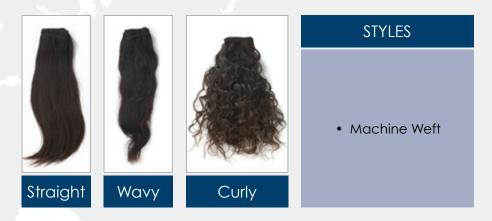

### Our Hair

#### Classic Brazilian Hair

Classic Brazilian Hair is 100% Brazilian human hair that has been collected from more than one donor. The cuticles have been descaled in each selection of Classic Brazilian Hair prior to processing to prevent tangling, and other quality issues. Each bundle of Classic Brazilian Hair is 4 ounces and available in a natural 1b-2. Classic Brazilian hair will have the same natural taper as our Virgin hair selections and will typically last 3 to 6 months depending on usage and proper care.

#### **CLASSIC BRAZILIAN HAIR IS AVAILABLE IN:**

#### Our Hair

#### Southeast Asian Hair (Cambodian & Malaysian)

Southeast Asian hair is a high quality human hair product sourced from all over Southeast Asia, predominantly Cambodia and Malaysia. Southeast Asian human hair is available in natural 1b-2 in Virgin and Steam Permed textures. Southeast Asian hair will last a year or more with proper care.

#### Remy Hair

Remy hair is human hair that is collected from one source or donor. The cuticles are intact and aligned in one direction. Remy hair contains some short hairs and will have a natural taper at the end that gives the end user a very natural looking hairstyle.

Selections

Wavy, Natural Curly and Steam Permed

#### Non-Remy Hair

Non Remy hair is human hair that is collected from more than one donor. Non Remy is sold in its raw state and also as a finished product. Finished Non Remy selections have had the cuticles descaled and all hairs are similar in length giving each piece a thick luscious appearance.

## Our Hair Products | Colored Hair

MTG has a full color ring and uses a specialized coloring process to achieve each of the 28 vibrant colors we offer. We work hard not to compromise the integrity of the hair by using bleach and harsh chemicals unnecessarily. Instead we start with 100% virgin, grey human hair and apply the color. This minimally invasive process ensures that the end result will be beautiful and lustrous so our customers will get the best quality colored hair possible.

**GREEN** 

ORANGE

## Our Hair Products | Bulk Hair

Loose or Bulk hair is hair that comes in a bundle without a weft, adhesive or tip. Bulk hair is typically used for braiding or blending and is available in natural or colored selections in any texture.

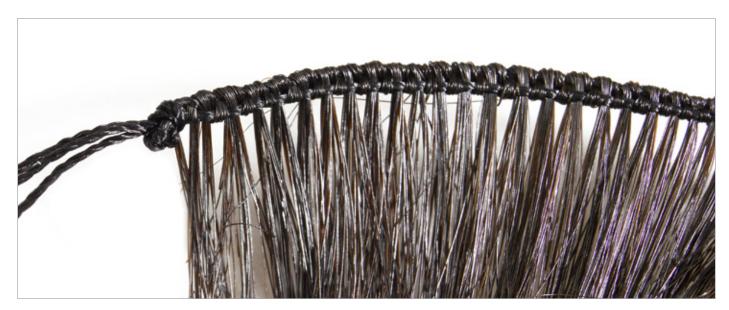

## Our Hair Products | Wefted Hair

#### **Machine Weft**

Machine wefts are made using a sewing machine. Machine weft extensions are the most common and most sturdy and can be cut without much shedding or unraveling.

#### **Hand Weft**

Hand tied wefts are wefted by hand and are much thinner than machine wefts. If you have fine hair or are concerned about visibility or bulky Machine Wefts, Hand wefted hair will give you a more natural look. Hand wefted hair is a specialized product that should be installed by a skilled stylist with experience using them.

## Our Hair Products | Prebonded/Keratin Hair

All strands or prebonded tips are used to add length or color to your existing hair. All of our strands are tipped with Swiss, Italian or French keratin of the finest quality.

Prebonded Hair Extensions are available in Fusion or I-tips. Fusion Hair can be directly applied to your existing hair by fusion of heat to keratin. Fusion hair extensions are available in Flat Tip, U-Tip, V-Tip and Nail Tip. I-tips are a type of strand extension in which the end, I-tip, actually resemble the end of a shoelace. This long narrow cylinder shaped strand extension is used with a round tube or micro ring. Both a strand of hair and the strand extension are fit into the micro ring and fastened.

## Our Hair Products | Clip-On Extensions

Clip in hair extensions are the easiest way to add length, volume and color to your hair. Clip in products are a great alternative to traditional methods of installation and give you the ability to change your appearance immediately.

## Our Hair Products | Closures & Frontals

Closures and Frontals are small lace pieces that are designed to compliment your look. They can be used to develop your style and blend well with most wefted hair selections.
